

Putting together your model:

Step 1. Get these two red pieces ready

Step 2. Lay them down in a line. This will be the bottom of your model.

Next use these 7 black pieces to make...

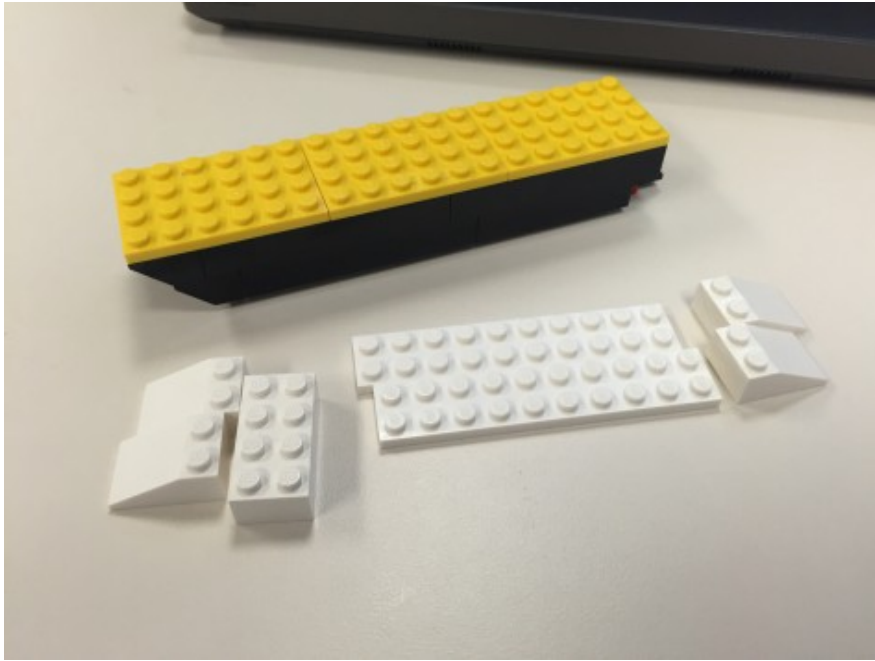

Putting together your model:

Step 3. Build the first layer of your model. These should go right on top of the 2 red pieces.

Find these 6 other black pieces for step 4.

Step 4. Build the 2nd layer of your model. In total, you should have two layers of black pieces.

Get these 3 yellow plates for the next step!

Putting together your model:

Step 5. Put the 3 yellow plates on top of the black layer.

Get these 8 white pieces ready for step 6.

Step 6. Build your first white layer leaving a low section in the middle. We'll fill this in next.

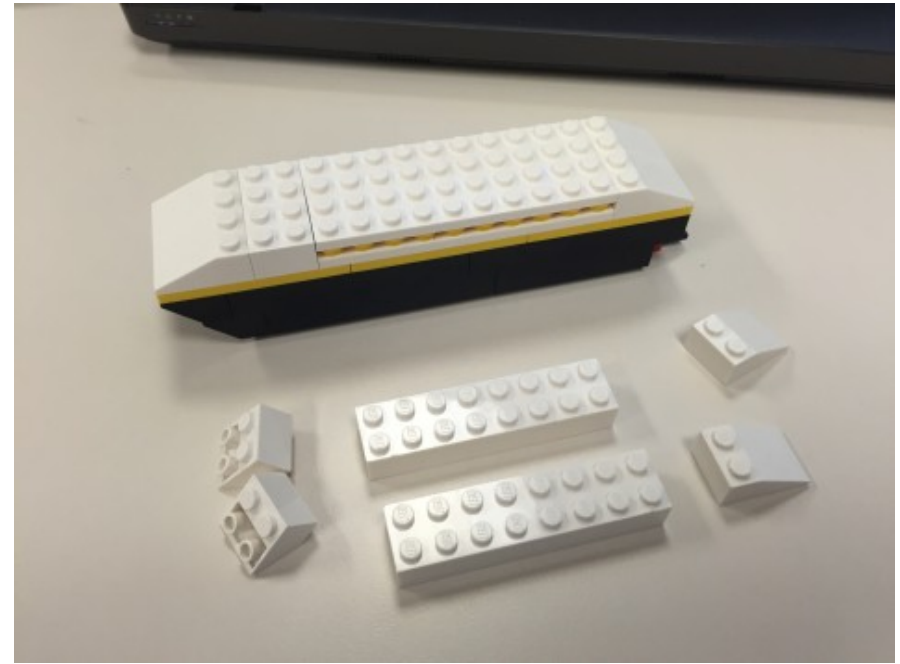

Look for all the little yellow pieces and another white plate.

Putting together your model:

Step 7. Lay all the yellow circles on either side of the middle section. You can use the white plate to fill the middle in.

Find 2 more white plates.

Step 8. Now cover it all up with those two white plates.

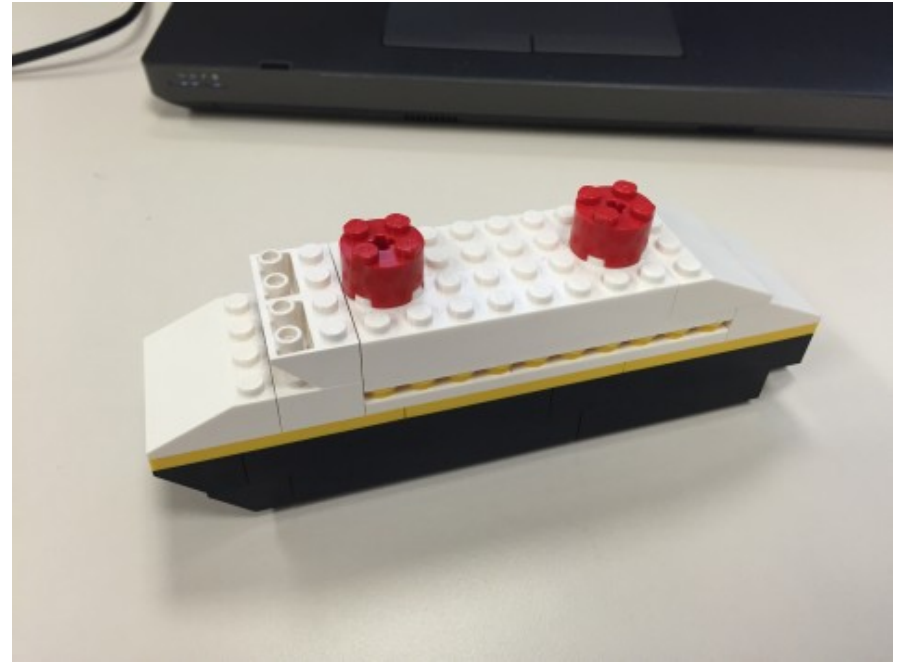

Let's finish off the body of our model with 6 more white pieces.

Putting together your model:

Step 9. Finish the main body of the model. Make sure the back section lines up correctly.

Almost done...

Step 10. Complete the model using the red pieces to make some smoke stacks.

You're done!
